

Snake Secret Message from Numbers 21:4-9.

You'll need scissors and at least 3 colours of crayons or markers—but you can use more colours!

Colour every area marked with an X black or some other dark colour. Then starting at the snake's head, colour a different colour between every set of dotted lines. You'll be making letters that spell an important message!

When you've coloured the whole snake, cut it out along the thick black line. Tape the snake's head to the top of a pole or stick, or just near the top, or dangle it from a string for a mobile. It will be a reminder to act on the secret message!
